

Meet Karengera

BCC have been supporting Karengera since 2015?

How many people altogether: Approx 150 (not including children)

How many community groups within Karengera? Two

Community Name: The United People

What have we helped with so far: Pineapple field

Needs:

- A shed to store their crops before selling at the market.
- A shelter for someone to look after the pineapples when it rains.
- Fertiliser.
- Training & to visit other communities to see how they do it.

Dreams:

- To extend the field for more pineapples and to grow vegetables.
- To be self-sufficient and pay for their own health insurance, even for those that can't afford it.
- Animals to be distributed amongst the people.
- To be able to support their kids and send them to school.
- To have children sponsored in each community group.

Local Executive:

Promised to match their funding to help them become self-sufficient and to train their cooperatives. To bring leaders who can show them how to do things and to go and see other projects. He will recommend they get support as they are one of the successful projects.
